Earth. In principle at least, we can use thermodynamics to predict at what temperature a rock will melt and the composition of that melt, and we can predict the sequence of minerals that will crystallize to form an igneous rock from the melt. We can predict the new minerals that will form when that igneous rock undergoes metamorphism, and we can predict the minerals and the composition of the ...

Imagining Southeast Asia In a book published at the dawn of the 21st century, I ... derived from the conscious promotion of the regional concept by its states, societies, and peoples, is what makes it a distinct idea in the latter part of the twentieth century. In this brief essay, I revisit these themes, especially in the light of the tumultuous events of the past two years. Drawing upon this ...
