International Regulations and Guidance for Computer Systems and Electronic Records. Software and computer systems used in regulated environments should be well controlled and validated.

International Regulations and Guidance for Computer

FLVS (Florida Virtual School) is an accredited, public, e-learning school serving students in grades K-12 online - in Florida and all over the world.

FLVS - Florida Virtual School | Grades K-12 Online

TEMPEST is a National Security Agency specification and a NATO certification referring to spying on information systems through leaking emanations, including unintentional radio or electrical signals, sounds, and vibrations. TEMPEST covers both methods to spy upon others and how to shield equipment against such spying.

Tempest (codename) - Wikipedia

This guide discusses computer forensics from a neutral perspective. It is not linked to particular legislation or intended to promote a particular company or product, and is not written in bias of either law enforcement or commercial computer forensics.

An introduction to Computer Forensics by Forensic Control

Hadoop Tutorial: Developing Big-Data Applications with Apache Hadoop Interested in live training from the author of these tutorials? See the upcoming Hadoop training course in Maryland, co-sponsored by Johns Hopkins Engineering for Professionals.

Hadoop Tutorial: Developing Big-Data Applications with

Early multitasking systems used applications that voluntarily ceded time to one another. This approach, which was eventually supported by many computer operating systems, is known today as cooperative multitasking.
